 CHAPTER 1 INTRODUCTION	
Introduction	1
Summary of Findings:	
Chapter 2: Population and Migration	2
Chapter 3: Race, Ethnicity, Age, Gender, Foreign Born, and Language.....	11
Chapter 4: Households, Marital Status, and Housing	29
Chapter 5: Income and Poverty.....	48
Chapter 6: Education and Employment.....	61
Chapter 7: Crime and Safety.....	79
Chapter 8: Births.....	91
Chapter 9: Deaths.....	117
Chapter 10: Health Status and Behaviors	145
Chapter 11: Health Resources and Utilization	175
 CHAPTER 2 POPULATION AND MIGRATION	
Summary	2
<u>Table</u>	
2.1 McHenry County Population: 1900-2015	3
2.2 McHenry County Places Population: 2000-2010 and July 1, 2014 Estimates	4
2.3 McHenry County Townships Population: 2000-2010 and July 1, 2014 Estimates	5
2.4 McHenry County, Illinois, and U.S. Residence Compared to One Year Ago: 2015	4
2.5 McHenry County Components of Population Change: 1990-1999, 2000-2009, and 2010-2015	4
2.6 McHenry County Migration: 2014-2015	7
 CHAPTER 3 RACE, ETHNICITY, AGE, GENDER, FOREIGN BORN, AND LANGUAGE	
Summary	10
<u>Table</u>	
3.1 McHenry County Persons by Race and Ethnicity: 2010 and 2015	13
3.2 McHenry County, Illinois, and U.S. Persons by Race and Ethnicity: 2015	13
3.3 McHenry County Persons by Race and Hispanic Origin: 2010 and 2015.....	14
3.4 McHenry County, Illinois, and U.S. Persons by Hispanic or Latino Origin: 2014	14
3.5 McHenry County Persons by Race: 2010 and 2015	15
3.6 McHenry County and U.S. Age Groups: 2015	15
3.7 McHenry County Persons by Age Group: 2000, 2010, and 2015.....	16
3.8 McHenry County and U.S. Median Age: 1990, 2000, 2010, and 2015	16
3.9 McHenry County Gender Ratio by Age Group: 1990, 2000, 2010, and 2015.....	17
3.10 McHenry County Persons by Detailed and Compressed Age Group: 2015	18
3.11 McHenry County Race/Ethnicity by Detailed and Compressed Age Group: 2014	19
3.12 McHenry County Median Age by Race/Ethnic and Gender: 2000, 2010, and 2015 ...	19
3.13 McHenry County Gender Ratio by Race/Ethnic: 2015	20
3.14 McHenry County Foreign Born Residents Year of Entry: 2015.	20
3.15 McHenry County, Illinois, and U.S. Region of Birth of Foreign Born: 2015.....	20
3.16 McHenry County, Illinois, and U.S. Leading Languages Spoken at Home: 2015	21
3.17 McHenry County, Illinois, and U.S. Nativity and Citizenship: 2015.....	21
3.18 McHenry County, Illinois, and U.S. Leading Ancestries Reported: 2014.....	22

TABLE OF CONTENTS (cont'd.)

CHAPTER 4 HOUSEHOLDS, MARITAL STATUS, AND HOUSING	
Summary	28
<u>Table</u>	
4.1 McHenry County, Illinois, and U.S. Relationship of Persons in Households: 2052	31
4.2 McHenry County, Illinois, and U.S. Persons by Household Type: 2015	31
4.3 McHenry County, Illinois, and U.S. Household Structure: 2015	32
4.4 McHenry County and U.S. Average Household Size and Average Family Size: 1970-2010 and 2015	32
4.5 McHenry County, Illinois, and U.S. Household Type For Children Under 18: 2015	33
4.6 McHenry County, Illinois, and U.S. Marital Status of Persons Ages 15+: 2015	33
4.7 McHenry County, Illinois, and U.S. Unmarried-Partner Households by Sex of Partner: 2014	33
4.8 McHenry County, Illinois, and U.S. Grandparents Living With Own Grandchildren Under 18 Years by Responsibility: 2015	34
4.9 McHenry County, Illinois, and U.S. Household Type For Persons 65 Years and Older: 2015	34
4.10 McHenry County and Illinois Housing Units: 2000-2015	35
4.11 McHenry County, Illinois, and U.S. Year Housing Unit Built and Median Year Built: 2015	35
4.12 McHenry County, Illinois, and U.S. Housing Units and Occupancy: 2015	36
4.13 McHenry County, Illinois, and U.S. Housing Ownership: 1990, 2000, and 2015	36
4.14 McHenry County, Illinois, and U.S. Selected Monthly Housing Costs For Owners and Renters: 2015	37
4.15 McHenry County, Illinois, and U.S. Households Spending 30% or More of Their Income For Housing by Tenure by Age Group: 2015	37
4.16 McHenry County, Illinois, and U.S. Households Spending 30% or More of Their Income For Housing by Tenure by Income Level: 2014	38
4.17 McHenry County, Illinois, and U.S. Vehicles Available: 2015	38
CHAPTER 5 INCOME AND POVERTY	
Summary	44
<u>Table</u>	
5.1 McHenry County, Illinois, and U.S. Median Household Income: 1989, 1999, and 2015	46
5.2 McHenry County, Illinois, and U.S. Median Income by Household Type: 2015	46
5.3 McHenry County, Illinois, and U.S. Median Household Income by Age and Race/Ethnicity: 2015	47
5.4 McHenry County, Illinois, and U.S. Household Income by Detailed Category and Income Type: 2015	47
5.5 McHenry County, Illinois, and U.S. Per Capita Personal Income: 1990-2014	48
5.6 McHenry County, Illinois, and U.S. Poverty For All Persons and Children: 1989, 1999, and 2015	49

TABLE OF CONTENTS (cont'd.)

	<u>Page</u>
 CHAPTER 5 INCOME AND POVERTY (cont'd.)	
<u>Table</u>	
5.7 McHenry County, Illinois, and U.S. Poverty For Selected Groups: 2015	49
5.8 McHenry County, Illinois, and U.S. Poverty by Race/Ethnicity: 2015	49
5.9 McHenry County, Illinois, and U.S. Ratio of Income to Poverty: 2014.....	50
5.10 McHenry County School Districts Children in Poverty and Low-Income 2013.....	51
 CHAPTER 6 EDUCATION AND EMPLOYMENT	
Summary	57
<u>Table</u>	
6.1 McHenry County, Illinois, and U.S. Educational Attainment: 2015	60
6.2 McHenry County, Illinois, and U.S. Educational Attainment: 1990, 2000, and 2015...	60
6.3 McHenry County Educational Attainment by Race/Ethnicity: 2015	61
6.4 McHenry County, Illinois, and U.S. Labor Force Participation by Gender and Children Presence: 1990, 2000, and 2015.....	61
6.5 McHenry County, Illinois, and U.S. Labor Force Participation Age 65+: 1990, 2000, and 2015.....	62
6.6 McHenry County Employment by Industry: 2000, 2005, and 2015.....	62
6.7 McHenry County, Illinois, and U.S. Occupation, Industry, and Class of Worker: 2015	63
6.8 McHenry County Number Experienced Labor Force by Occupation, Gender, and Race/Ethnic Group: 2010	64
6.9 McHenry County Percent Experienced Labor Force by Occupation, Gender, and Race/Ethnic Group: 2010	65
6.10 McHenry County Top 15 Employers	66
6.11 McHenry County, Illinois, and U.S. Annual Average Employment and Unemployment: 1990-2015.....	67
6.12 McHenry County Workers Commuting Patterns: 2013.....	68
6.13 McHenry County, Illinois, and U.S. Commuting Time and Method: 2015	69
 CHAPTER 7 CRIME AND SAFETY	
Summary	75
<u>Table</u>	
7.1 McHenry County and Illinois Number and Rate of Crime by Type Offense: 2015	76
7.2 McHenry County Number and Rate of Drug Offense Arrests: 1998-2015.....	77
7.3 McHenry County and Illinois Child Abuse/Neglect Reported and Indicated Cases: 2000-2015.....	78
7.4 McHenry County Motor Vehicle Crashes and Related Data: 2000-2014.....	79

CHAPTER 8 BIRTHS	
Summary	83
<u>Table</u>	
8.1 McHenry County, Illinois, and U.S. Births and Birth Rate: 1980-2014.....	86
8.2 McHenry County, Illinois, and U.S. Fertility Rates: 1990, 2000, and 2014	87
8.3 McHenry County Births by Race and Hispanic Ethnicity: 1980-2014	88
8.4 McHenry County, Illinois, and U.S. Births by Age of Mother: 2014.....	89
8.5 McHenry County and U.S. Age-Specific Fertility: 2000 and 2014	89
8.6 McHenry County Age-Specific Fertility by White, Non-Hispanic and Hispanic: 2010-2014.....	90
8.7 McHenry County, Illinois, and U.S. Births to Teen Mothers: 1980-2014.....	91
8.8 McHenry County Teen Births by White, Non-Hispanic and Hispanic: 1995-2014.....	92
8.9 McHenry County, Illinois, and U.S. Low Birth Weight Births: 1980-2014.....	93
8.10 McHenry County, Illinois, and U.S. Preterm Births: 1995-2014	94
8.11 McHenry County, Illinois, and U.S. Births to Unmarried Mothers: 1980-2014	95
8.12 McHenry County and Illinois Prenatal Care Begun First Trimester: 2010-2014.....	96
8.13 McHenry County and Illinois Mothers Who Use Tobacco During Pregnancy: 1990-2014	97
8.14 McHenry County, Illinois, and U.S. Selected Maternal Risk Factors: 2014	98
8.15 McHenry County Selected Maternal Risk Factors by White, Non-Hispanic and Hispanic: 2014.....	98
8.16 McHenry County, Illinois, and U.S. Selected Birth and Delivery Characteristics: 2014	99
8.17 McHenry County and U.S. Birth Characteristics by White, Non-Hispanic and Hispanic: 2013 and 2014	100
8.18 McHenry County and Illinois Induced Pregnancy Terminations: 1995-2014	101
8.19 McHenry County, Illinois, and U.S. Number of Infant Deaths and Rates: 1980-2013	102
8.20 McHenry County, Illinois, and U.S. Average Annual Infant Death Rates: 1995-2013.....	103
8.21 McHenry County Average Annual Infant Death Rates by White, Non-Hispanic and Hispanic: 2010-2013.....	103
CHAPTER 9 DEATHS	
Summary	110
<u>Table</u>	
9.1 McHenry County, Illinois, and U.S. Total Resident Deaths and Death Rates: 1990-2014.....	113
9.2 McHenry County, Illinois, and U.S. Age-Adjusted Death Rate: 2014	114
9.3 McHenry County and U.S. Deaths and Death Rates by Age Group: 2014.....	114
9.4 McHenry County Deaths by Cause: 2002-2014.....	115
9.5 McHenry County, Illinois, and U.S. Deaths by Cause: 2012-2014	116
9.6 McHenry County, Illinois, and U.S. Deaths Due to Leading Types of Cancer: 2012-2014	117
9.7 McHenry County, Illinois, and U.S. Accidental Deaths: 1999-2014	118

TABLE OF CONTENTS (cont'd.)

	<u>Page</u>
CHAPTER 9 DEATHS (cont'd.)	
<u>Table</u>	
9.8 McHenry County, Illinois, and U.S. Accidental Deaths by Type of Accident: 2012-2014	118
9.9 McHenry County Accidental Deaths by Injury Mechanism: 1999-2014	119
9.10 McHenry County, Illinois, and U.S. Drug and Alcohol Induced Causes of Death: 1999-2014	120
9.11 McHenry County Distribution of Drug Versus Alcohol Induced Deaths: 1999-2014.....	121
9.12 McHenry County, Illinois, and U.S. Age-Adjusted Death Rates For Ten Leading Causes: 2012-2014	121
9.13 McHenry County Selected Death Causes by Gender: 2010-2014	122
9.14 McHenry County and U.S. Deaths Before 65 For Selected Causes: 2010-2014	122
9.15 McHenry County, Illinois, and U.S. Years Life Lost: 2011-2013.....	123
9.16 McHenry County, Illinois, and U.S. Crude and Age-Adjusted Death Rates by Hispanic Origin: 2014	123
9.17 McHenry County and U.S. Age-Adjusted Death Rates For Two Leading Causes of Death by Hispanic Origin: 2010-2014	123
9.18 McHenry County Deaths Before Age 65 by Hispanic Origin: 2010-2014.....	124
9.19 McHenry County Leading Death Causes by Age Group: 2005-2014	125
9.20 McHenry County Percent of Deaths For Leading Causes: 2002-2004 and 2012-2014.....	126
9.21 McHenry County Average Annual Death Rates by Cause: 2002-2004 and 2012-2014.....	127
9.22 McHenry County Birth:Death Index: 1980-2014.....	128
9.23 McHenry County, Illinois, and U.S. Suicide Deaths: 1995-2014.....	129
9.24 McHenry County Suicide Deaths by Injury Mechanism: 1999-2014.....	129
9.25 McHenry County, Illinois, and U.S. Suicide Deaths by Age Group: 1999-2010	130
9.26 McHenry County, Illinois, and U.S. Drug Overdose Deaths: 1999-2014	131
9.27 McHenry County, Illinois, and U.S. Drug Overdose Deaths by Selected Age Groups: 1999-2014.....	131
 CHAPTER 10 HEALTH STATUS AND BEHAVIORS	
Summary	140
<u>Table</u>	
10.1 McHenry County and Illinois Average Annual Cancer Incidence All Sites: 2009-2013.....	144
10.2 McHenry County Cancer Incidence Rates That Vary Significantly From State: 2009-2013.....	144
10.3 McHenry County and Illinois Age-Adjusted Average Annual Cancer Incidence by Site: 2009-2013	145
10.4 McHenry County and Illinois Sexually Transmitted Diseases Number and Rate of Chlamydia and Gonorrhea: 1990-2015	146
10.5 McHenry County and Illinois AIDS and HIV Cases: 2015	147
10.6 McHenry County Reported Communicable Diseases: 2010-2015	147
10.7 McHenry County and Illinois Past Month Youth Substance Use by Grade Level: 2014 and 2015	148

Chapter 1 INTRODUCTION

Introduction

The Community Analysis presents a comprehensive overview of McHenry County, Illinois by describing the population through secondary sources of information. This study complements two other studies that are also part of the McHenry County Healthy Community 2017 project, Key Informants and Community Survey.

Community Analysis topics include population size, migration, race/ethnicity, language, ancestry, age, gender, income, employment, household structure, crime, births, deaths, health behaviors, morbidity, hospitalization, and health care utilization. The most current data as of December 2016 are shown along with historical data as well as state and national comparisons.

Two major sources of information for the Community Analysis are the U.S. Census Bureau and National Center for Health Statistics (NCHS). Most of the detailed Census information comes from the 2015 actual population counts and the 2011-2015 American Community Survey five-year estimates. Replacing the Census Bureau's "long form" which had been administered as part of the decennial Census through 2000, the American Community Survey collects detailed demographic, economic, social, and housing data on an annual basis from a sample of households (about 1.5%-2% of households per year). For vital statistics data, this report has drawn heavily from NCHS Centers for Disease Control and Prevention's CDC WONDER (Wide-ranging ONline Data for Epidemiologic Research) database.

Data for this report are also drawn from additional federal sources including the U.S. Department of Commerce Bureau of Economic Analysis, U.S. Treasury Internal Revenue Service, and Substance Abuse and Mental Health Services Administration (SAMHSA). State data sources are Illinois Department of Public Health, Illinois Department of Employment Security, Illinois Uniform Crime Reporting System, Illinois Department of Children and Family Services, Illinois Department of Healthcare and Family Services, Illinois State Board of Education, Illinois Hospital Association's COMPdata, and Illinois Youth Survey. Sources are noted for all tables.

McHenry County Department of Health has prepared this report with help from McHenry County Healthy Community Partners and Health Systems Research. Ben Baer was the MCDH staff member who gathered and analyzed most of the data.

Summary of Findings

At the beginning of each chapter is a summary of key findings for that particular topic. Table references are shown for easy identification of the data addressed in the summary findings. Far more details than summarized in the text are found in each table. Graphs portraying data highlights and trends are presented at the end of each chapter.

Chapter 2 POPULATION AND MIGRATION

	Table (Figure)
○ Using 2015 Census estimates, McHenry County's population stands at 307,343, a -0.5% decline from 2010 at 308,760. This slight drop follows an 18.7% increase during the previous decade and 41.9% growth during the 1990's. McHenry County's most significant growth occurred during the 1950's (+66.2%).	2.1 (2.1) (2.2)
○ Crystal Lake is the largest community in McHenry County with a 2014 population of 40,598 though the city lost population (-0.4%) between 2010 and 2014. Other McHenry County communities with greater than 20,000 residents include Lake in the Hills (28,926), McHenry (26,803), Woodstock (25,120), and Algonquin (30,189) though not all residents of Algonquin live within McHenry County.	2.2
○ Six McHenry County communities lost population between 2000 and 2014 including Holiday Hills (-27.1%), McCullom Lake (-3.7%), Oakwood Hills (-5.5%) Trout Valley (-13.4%), and Union Village (-11.6%).	2.2
○ Four-year change 2010 to 2014 shows slight population decline in the majority of McHenry County communities.	2.2
○ The largest township in McHenry County is Algonquin Township with a 2014 estimated population of 87,944, while Alden Township is the smallest having 989 residents in 2014.	2.3
○ Among McHenry County townships, between 2000 and 2014 only Alden (-55.1%) and Hebron (-5.5%) lost population. Grafton Township grew fastest a 48.5% gain in population. Growth was also strong in Riley (+37.7%), Richmond (+26.4%), Greenwood (+23.8%), and Burton (+19.5%) Townships.	2.3
○ McHenry County residents are less mobile than other Illinois and U.S. residents with 89.0% living in the same house in 2015 as in 2014 versus 86.8% for Illinois and 85.3% for the nation.	2.4 (2.3)
○ Of the 11.0% who moved to a different home in 2015, over half (6.0%) moved within McHenry County and a smaller proportion (4.8%) came from a different county or state.	2.4
○ From 2010-2015 the population of McHenry County decreased by 1,483. There were more births than deaths (6,999) but net outmigration (loss of 8,702).	2.5
○ More households and persons left McHenry County between 2015 and 2014 tax filings than entered, based on 2015 federal income tax filing figures.	2.6
○ Most residents who left McHenry County moved to another county in Illinois, most frequently to Cook (20.6%), Lake (12.9%), or Kane (12.1%) Counties.	2.6
○ Most residents moving into McHenry County came from another county in Illinois, led by Cook (28.6%), Lake (17.3%), and Kane (14.5%) Counties.	2.6

Chapter 3 RACE, ETHNICITY, AGE, GENDER, FOREIGN BORN, AND LANGUAGE

	Table (Figure)
○ When the 2015 population is classified into race/ethnic categories, 81.8% of McHenry County is non-Hispanic white, 12.6% Hispanic, 2.9% non-Hispanic Asian, 1.2% non-Hispanic two or more races, and 1.4% non-Hispanic black.	3.1 (3.1)
○ The county's non-Hispanic black (+38.5%) and non-Hispanic Asian (+14.3%) populations had a large increase between 2010 and 2015. The Hispanic population grew 10.1% in the same time period. The non-Hispanic white population decreased by 1.8% over the past five years.	3.1 (3.2)
○ McHenry County residents are less diverse than the state and nation in terms of race/ethnic makeup. The county's 81.8% non-Hispanic white proportion is much larger than Illinois and the U.S., at 61.9% and 61.6% respectively. Considerably fewer non-Hispanic blacks (1.4%) live in McHenry County compared to the state (14.1%) and nation (12.4%), while Hispanics make up 12.6% of McHenry County but comprise 16.9% of Illinois' population and 17.6% of the nation.	3.2 (3.3)
○ In terms of race alone, 93.5% of McHenry County residents in 2015 are white, 2.9% Asian, 1.6% black, 1.5% two or more races, 0.5% American Indian/Alaska native and 0.1% Native Hawaiian or Pacific Islander. Since Hispanic is considered an ethnicity, not a race, the racial proportions include the county's Hispanic population. Compared to 2010, the white and two or more races proportion dropped while all other racial groups grew.	3.3
○ The majority of McHenry County Hispanic residents are of Mexican origin and comprises one in ten county residents (10.1%).	3.4 (3.4)
○ McHenry County residents in 2015 are primarily of one race (98.6%) though 1.4% report belonging to two or more races.	3.5
○ McHenry County residents have a median age 2.3 years greater than the U.S.(40.1 compared to 37.8). A slightly greater proportion of McHenry County residents are below 18 (24.5% compared to 22.9%) and a slightly lower proportion are over 65 than in the country as a whole (12.6% compared to 14.9%).	3.6
○ During the 2010-2015 McHenry County's under age 5 population dropped by 15.2%, while a similar drop was also seen for ages 5-17 (-9.2%) and 25-44 (-11.4%). Gains occurred for all other age groups led by ages 65-74 (+32.1%) and 18-24 (15.4%). Smaller gains were seen for ages 75+ (+10.9%) and 45-64 (6.7%).	3.7 (3.5) (3.6)
○ The McHenry County population aged by 1.8 years in between 2010 and 2015, the median age moving from 34.2 in 2000 up to 40.1 in 2015, more than double the increase for the U.S (35.3 to 37.8).	3.8 (3.7)
○ The total number of males and females residing in McHenry County is similar with a male to female ratio of 99.2. However, males outnumber females in all age groups birth to 34, while females outnumber males in all 35 and older age groups. By age 85 there are 2 women for every man in the county.	3.9

- Between 2000 and 2010 the gender ratios in the 25-29 and 30-34 age groups rose, indicating an increase in men over women. Alternately, the ratio of men to women dropped for age groups in the 35-64 age range, signaling an increase in women over men. Women still outnumber men in the 65+ age groups in 2010, but over the past two decades the gender ratio gaps have lessened for seniors. 3.9
- Children under 18 make up 24.5% of McHenry County's population, young adults ages 20-24 comprise 8.7% of the county's residents, persons ages 25-44 make up just under one-quarter (23.9%) of the population, adults 45-64 comprise the largest share at 30.2%, and 12.7% of the county's population is seniors aged 65+. 3.10
- Children under age 18 comprise 38.7% of the county's Hispanic population and 35.7% of the black population, but just 26.3% of the Asian population and 23.6% of the white, non-Hispanic population. 3.11 (3.8)
- More than one in ten (12.6%) white, non-Hispanic residents is age 65 or older, far above the proportions for Hispanics (2.8%), blacks (7.0%), and Asians (9.1%). 3.11 (3.8)
- Median female age is 40.8 years, slightly higher than the male median age of 38.7 years. 3.12 (3.9)
- The white, non-Hispanic median age of 43.3 is slightly higher than the 39.4 for Asian residents, but both exceed by more than 10 years medians for the county's Hispanic (26.5) population and are significantly higher than black (32.5) residents. 3.12 (3.9)
- Over the past fifteen years, the median age rose 7.8 years for white, non-Hispanic residents. It rose 7.7 years for Asian, 5.7 years for black, and 2.7 years for Hispanic residents. 3.12
- Among the county's white, non-Hispanic population, there are slightly more females than males, but for the Hispanic population the reverse is true. 3.13
- Of the 30,076 foreign-born residents of McHenry County as of 2015, 68.9% entered the U.S. before 2000. 3.14
- Almost half (49.5%) of foreign-born residents were born in Latin America, similar to the state (45.7%) and nation (51.1%). Slightly over one-quarter (25.6%) were born in Europe which is similar to Illinois (20.70) but twice as high as the U.S. (11.1%). Asian-born residents comprise one-fifth (20.0%) of McHenry County's foreign-born residents, less than the state (29.2%) and nation (30.6%). 3.15 (3.10)
- Among persons five years and older in the county, 14.3% speak a language other than English at home, with Spanish spoken by 9.1% which is below Spanish-speaking levels for both Illinois (13.5%) and U.S. (13.3%). Only 5.9% of persons speak English less than "very well." 3.16
- For the county's foreign-born population (9.8%), just under half (4.7%) are not U.S. citizens and just over half (5.1%) are naturalized citizens. 3.17

- Nearly one-third (33.2%) of McHenry County residents are of German ancestry which is far more common than in Illinois (18.6%) and the U.S. (14.4%). Irish (16.9%), Polish (15.2%), and Italian (9.6%) ancestries follow, all at levels above the state and nation. 3.18

Chapter 4 HOUSEHOLDS, MARITAL STATUS, AND HOUSING

	Table (Figure)
<ul style="list-style-type: none"> Within households, McHenry County residents are classified as householder (26.5%), spouse (21.8%), child (32.5%), other relatives (4.6%), nonrelatives (1.5%), and unmarried partner (0.7%). Levels are slightly higher than the state and nation for spouse and child proportions. 	4.1
<ul style="list-style-type: none"> Nearly nine in ten (87.4%) county residents live in a family household, a higher proportion than for both Illinois (83.1%) and U.S. (83.2%). Slightly over one in ten (12.6%) lives in a nonfamily household, fewer than across the state (16.9%) and nation (16.8%). 	4.2
<ul style="list-style-type: none"> Only 7.6% of the population lives alone, below Illinois (11.2%) and U.S. (10.5%). 	4.2
<ul style="list-style-type: none"> An estimated 1,575 residents reside in group quarters, comprising only 0.5% of the county's entire population, far below levels for the state (2.3%) and nation (2.5%). 	4.2
<ul style="list-style-type: none"> According to 2015 Census estimates, McHenry County contains 111,124 households. 	4.3
<ul style="list-style-type: none"> Three-quarters (73.3%) of households are family households, far above the proportion for Illinois (64.6%) and U.S. (65.6%). Married-couple families, both with and without children, make up 60.2% of the county's households, also far higher than the state (47.7%) and nation (48.0%). 	4.3
<ul style="list-style-type: none"> Slightly over one quarter (26.4%) of households are comprised of a married couple with children under 18, much higher than Illinois (19.4%) and U.S. (18.8%). 	4.3 (4.1)
<ul style="list-style-type: none"> One in fourteen (6.8%) households is headed by a single parent, more often female-headed (5.2%) than male-headed (1.6%). 	4.3 (4.1)
<ul style="list-style-type: none"> McHenry County's average household size at 2.75 is higher than 2.62 for Illinois and 2.65 for U.S. The average family size of 3.22 in McHenry County is close to the state of Illinois (3.29) and the country as a whole (3.26) 	4.3
<ul style="list-style-type: none"> Average household size declined in McHenry County from 2000 to 2015 (2.89 to 2.75 persons), contrary to the U.S.'s slight rise from 2.59 to 2.65. 	4.4 (4.2)
<ul style="list-style-type: none"> Average family size decreased slightly in McHenry County from 2000 to 2015 (3.31 to 3.22), but increased for the U.S. moving from 3.14 to 3.26. 	4.4
<ul style="list-style-type: none"> Of the 75,192 children under 18 in McHenry County in 2015, 78.7% lived in a married-couple household, far above levels seen in Illinois (66.8%) and U.S. (65.8%). 	4.5 (4.3)
<ul style="list-style-type: none"> More than one in seven (16.1%) McHenry County children live in a single-parent female-headed household, though this proportion is lower than that of both Illinois (25.3%) and U.S. (25.6%). 	4.5 (4.3)

- Over half (56.9%) of McHenry County residents age 15 and older are currently married, well above the proportions for the state (47.4%) and nation (47.5%). Slightly fewer residents age 15+ are widowed (4.7%) than in Illinois (5.7%) and U.S. (5.8%) and fewer (1.3%) are separated as in the state (1.7%) and nation (2.1%). 4.6 (4.4)
- Based on 2014 Census estimates, there are 5,803 unmarried-partner households in McHenry County, split almost evenly between a male householder (53.4%) or a female householder (46.6%). 4.7
- Of the 4,339 McHenry County grandparents estimated in 2015 to be living with a grandchild under age 18, 33.2% are responsible for care of the grandchild which is greater than levels seen in Illinois (29.5%) and less than in the U.S. (35.3%). 4.8
- More than seven in ten (71.6%) McHenry County seniors age 65 and older live in a family household, above Illinois (65.1%) and U.S. (67.5%) proportions. 4.9
- Among seniors age 65 and older in the county, almost twice as many females (15.7%) than males (8.4%) live alone. 4.9
- Census estimates for 2015 report that McHenry County contains 117,351 housing units, a 0.3% increase over 2014 and a 1.1% increase over 2010. Growth in housing units during the early 2000's was far higher at >3% each year then dropped under 1% in 2009. 4.10
- According to 2015 Census data, the median year built for McHenry County housing units is 1985, making the average home newer than across Illinois (1968) and U.S. (1977). 44.4% of McHenry County housing units have been built since 1990, significantly higher than state (23.6%) and national (31.5%) levels. 4.11
- More than nine in ten (95.6%) McHenry County housing units are occupied, higher than Illinois (90.2%) and U.S. (87.7%). The remaining 4.4% of housing units are vacant in the county, below vacancy rates for the state (9.8%) and nation (12.3%). 4.12
- Rental units are much more likely (6.3%) to be vacant as homeowner units (0.8%). 4.12
- The proportion of owner-occupied housing units stood at 78.3% in 2015 for McHenry County, the remaining 21.7% were occupied by renters. McHenry County's home ownership level is much higher than Illinois (65.3%) and U.S. (63.0%). 4.13 (4.6)
- McHenry County's home ownership rate dropped between 2010 and 2015, falling from 84.1% to 78.3%. 4.13
- McHenry County homeowners with a mortgage have median monthly housing costs of \$1,709, above Illinois (\$1,588) and U.S. (\$1,477). For almost three in ten (28.8%) of these county homeowners, the costs are more than 30% of their household income, very similar to the state (29.1%) and nation (29.4%). 4.14 (4.7)
- McHenry County homeowners without a mortgage have median monthly housing costs of \$743, higher than both Illinois (\$589) and U.S. (\$468). For around one-sixth (15.4%) of nonmortgage owners, costs are 30% or more of their household income, close to levels for the state (15.6%) and nation (13.9%). 4.14 (4.7)

- McHenry County renters have a median monthly rent of \$1,136, above Illinois (\$936) and U.S. (\$959). For almost half (43.7%) of renters, their gross rent is 30% or more of their household income, similar to Illinois (45.6%) and U.S (46.8%). 4.14 (4.7)
- Only 3.7% of McHenry County households have no vehicle available, one-third of Illinois (10.8%) and U.S. (8.9%). More than four in ten (42.9%) county households have two vehicles available, higher than Illinois (36.1%) and U.S. (20.3%). 4.15
- One in twelve (8.4%) McHenry County seniors age 65 and older does not have a vehicle available in the household, much higher than for ages 15-34 (1.9%) and 35-64 (2.0%). The proportion of households without a vehicle in McHenry County is far below the state of Illinois and the country as a whole. 4.16
- According to 2015 Census estimates, the median value of owner-occupied units in McHenry County is \$205,300, above both Illinois (\$180,300) and U.S. (\$194,500). 4.17

Chapter 5 INCOME AND POVERTY

	Table (Figure)
○ McHenry County's 2015 median household income at \$80,125 stands above Illinois (\$59,588) and U.S. (\$55,775). From 2009 to 2015, the county's median household income rose by 3.6%, lower than the state increase of 7.9% and 8.4% for the nation.	5.1 (5.1)
○ McHenry County families, defined as households containing two or more persons related by blood, marriage, or adoption, report a far higher median income (\$91,043) than nonfamily households (\$50,086) which includes persons living alone. The county's 2015 per capita income was \$35,163. The county's incomes for all household types stand well above Illinois and the U.S.	5.2
○ Families with children claim the highest 2015 median income at \$96,164 more than twice the level for females living alone at \$39,216.	5.2 (5.2)
○ Local households headed by 45-64 year olds earned the most, an annual amount of \$94,737, followed by ages 25-44 at \$80,300. The county's youngest and oldest households report much lower incomes. Households headed by persons under 25 earned \$49,891 per year, while the median household income for 65+ was \$51,625.	5.3 (5.3)
○ Non-Hispanic white households report a 2015 median income of \$81,176, well above the amount for black households at \$64,762 and Hispanic households at \$67,009.	5.3 (5.3)
○ One in five (20.2%) households earn in the \$100,000-\$149,999 range. One in ten (10.7%) local households earned less than \$25,000 per year, while 16.5% received incomes of \$150,000 or more.	5.4
○ McHenry County's 2014 per capita personal income (PCPI) at \$46,720 equates to 101.5% of the U.S. PCPI. From 2008-2011 the county's PCPI as a percent of the U.S. PCPI dropped below 100% after holding above 100% from 1990 to 2007.	5.5 (5.4)
○ From 2000 to 2014, McHenry County's per capita personal income rose 37.2%, less than the increases seen for Illinois (+43.3%) and U.S. (+51.9%).	5.5
○ Based on 2015 Census estimates, 6.9% of the county's population lives at or below poverty, far below the state (14.3%) and nation (15.5%). One in eleven (8.9%) McHenry County children under 18 live at or below poverty, half of Illinois (20.1%) and U.S. (21.7%).	5.6 (5.5)
○ Nearly one-third (29.9%) of McHenry County's single female-headed families with children at home live in poverty, less than Illinois (38.8%) and U.S. (39.2%). Poverty for married-couple families with children at home is only 6.9%, the same as the state but below the nation (7.7%) and for seniors age 65 and older only 3.4%, below Illinois (4.7%) and the country as a whole (5.1%)	5.7 (5.8)
○ In McHenry County, one-fifth (19.0%) of Hispanic and black residents (21.9%) live at or below the poverty line, nearly four times the level for white, non-Hispanic residents (5.9%). The county's Hispanic poverty level is similar to the state and nation, but poverty among black and white, non-Hispanic residents is considerably below.	5.8 (5.9)

- Known as the ratio of income to poverty, those living in extreme poverty (under 50% of the poverty threshold) are 3.5% of the county's population. An additional 5.8% live between 50%-99% of poverty. Residents at 100%-199% poverty are considered "struggling" or near poor and make up 11.0% of McHenry County's population. Altogether, 61,704 persons in the county or one in five (20.2%) are poor or near poor, much lower than Illinois (30.2%) and U.S. (33.0%). 5.9
- Among McHenry County school districts, school-age low income based on 2013 ISBE data estimates is highest in Harvard Community Unit 50 (63.5%), followed by Harrison 36 (62.5%) 5.10

Chapter 6 EDUCATION AND EMPLOYMENT

	Table (Figure)
<ul style="list-style-type: none"> Among McHenry County adults ages 25 years and older, more than nine in ten (93.4%) have completed high school, exceeding the state (88.6%) and nation (87.1%). The proportion of local adults who have obtained a four-year college degree at 32.8% is slightly lower than Illinois (32.9%) and higher than the U.S. (30.6%). 	6.1
<ul style="list-style-type: none"> One in ten (11.0%) adults in McHenry County has a graduate or professional degree, lower than the state (12.7%) and nation (11.6%). 	6.1 (6.1)
<ul style="list-style-type: none"> In terms of highest educational attainment level, about a quarter (27.9%) of the county's adults 25+ have only a high school diploma, while 6.6% have less education. One-quarter (23.1%) have attended some college but received no degree, and 9.7% hold an associate degree. 	6.1 (6.1)
<ul style="list-style-type: none"> Over the past two decades, McHenry County has witnessed a rise in the percent of adults with a high school education, rising from 84.5% in 1990 to 93.4% in 2015, an increase also experienced at the state and national levels. 	6.2
<ul style="list-style-type: none"> McHenry County also achieved progress in the adult 25+ population obtaining a Bachelor's degree rising from 21.0% in 1990 to 32.8% in 2015, similar to the improvement in Illinois and slightly better than the nation's improvement. Graduate degree completion in the county rose from 6.4% in 1990 to 11.0% in 2015, similar to the state and nation. 	6.2
<ul style="list-style-type: none"> One-third (32.3%) of Hispanic adults in McHenry County do not have a high school diploma, far above white, non-Hispanic (3.7%) levels. 	6.3 (6.2)
<ul style="list-style-type: none"> Six in ten (60.6%) McHenry County children under age 6 have all parents in the labor force as do 71.6% of children 6-17. The level for parents of under 6 is below the state (67.7%) and nation (65.1%). For children 6-17 a larger proportion (71.6%) have both parents in the labor force, roughly equivalent to the state (71.8%) and nation (70.3%) 	6.4 (6.3)
<ul style="list-style-type: none"> Labor force participation fell in McHenry County from 2010-2015 from 73.3% to 70.6%. Labor force participation remains higher than the state (65.2%) and the nation (63.1%). 	6.5
<ul style="list-style-type: none"> Labor force participation among McHenry County seniors ages 65 and older hit 18.5% in 2015, higher than both Illinois (17.4%) and U.S. (17.3%). The county's 2015 level was higher than 1990's 16.7%. 	6.5 (6.4)
<ul style="list-style-type: none"> Based on Illinois Department of Employment Security (IDES) Local Employment Dynamics data, McHenry County's four top industry types in 2015 were manufacturing, retail trade, and education and health care/social assistance. This data represents employees who work in McHenry County and not individuals who reside in the county and commute outside of it for work. 	6.6

- Compared to 15 years earlier, the county's biggest proportional loss in terms of number of employees has taken place in utilities (-92.2%), mining/quarrying/oil and gas extraction (-42.9%), real estate/rental/leasing (-35.5%), and manufacturing (-33.6%). The biggest gains occurred for management of companies/enterprises (+584.4%), administrative/support/waste management/remediation services (+131.1%), and health care/social assistance (+62.9%). 6.6
- Among the top five McHenry County industries in 2015, only manufacturing lost jobs between 2000 and 2015 (-19.4%), with gains in the other four: retail trade (+5.1%), educational services (+12.5%), health care and social assistance (+20.5%), and accommodation and food services (+16.8%). 6.6 (6.5)
- Slightly less than one in five (18.7%) employees who live in McHenry County works in education/ health/social services, the largest industry group and a category that combines two groups in the IDES data. Manufacturing follows at 15.3%, while retail trade accounts for 12.4%. Manufacturing claims the biggest excess over U.S. (6.4%). 6.7 (6.6)
- The most common occupation is management/business/science/and arts at 37.7% of the population. Sales and office work is second at 26.7%, both similar to the state levels of 37.5% and 23.7% respectively. 6.7
- The largest number of McHenry County males work in management/business/financial (16,170) and females in administrative support (20,410). As a ratio, males are most dominant in construction (9,939 males:210 females), installation/maintenance/repair (7,227:500), and protective service (2,439:535). Females dominate in administrative support (20,410 females:5,800 males), healthcare practitioner (3,415:990), and service worker except protective (11,229:5,785). 6.8
- By race/ethnicity and gender, management/business/financial accounts for 19.3% of white, non-Hispanic male employees in McHenry County, their number one occupational group, while leading among white, non-Hispanic females is administrative support (27.9%). 6.9
- Among black men, sales is the number one occupational group (21.8%) and black females most often are service workers (18.4%). For both Hispanic men (19.7%) and women (22.8%), production operative is the leading occupational group. 6.9
- Centegra Health System tops the list of McHenry County employers with 3,650 employees followed by District 158 School District with 1,500 employees followed by McHenry County government (1,400) and Follett Library Resources, Inc. (1,378). Follett Software ranks fifth but did not report the number of employees. Others with more than 600 employees include Catalent Pharma Solutions (830), Mercy Health System (732), and Brown Printing (650). 6.10
- McHenry County unemployment in 2015 stood at 5.3%, a seven-year low. Unemployment was highest in 2010 at 10.0%. The county's unemployment rate was consistently similar to or below state and national levels until 2009. Since then, McHenry County's unemployment rate has been above the nation, but below Illinois until this year 6.11 (6.7)

- Just over half (51.1%) of McHenry County workers are employed in jobs based within the county. The most common county for workers who commute out of the county is Cook accounting for one in five (21.0%) followed by Lake County (13.1%), Kane County (7.1%), and Du Page County (3.9%). 6.12
- McHenry County workers travel, on average, 35.6 minutes to get to work, longer than Illinois at 28.8 and the national 26.4 average. Nearly one in five (21.3%) McHenry County commuters travel more than an hour to work. 6.13 (6.8) (6.9)
- Most (89.0%) workers in the county use a car, truck, or van to commute, the majority of whom drive alone. Of the remainder 3.5% of the county uses public transportation and 0.9% walk to work while 5.9% work at home. 6.13

Chapter 7 CRIME AND SAFETY

	<u>Table (Figure)</u>
○ McHenry County reported 3,365 crimes in 2015, a rate of 1,095.1 per 100,000 population, half the state rate of 2,300.2.	7.1
○ The vast majority of crimes (91.1%) are property-related and most of those are theft which accounted for 67.0% of total crimes in the county in 2015.	7.1
○ Violent crimes numbered 298 in 2015, a rate of 97.1 per 100,000, far below the state at 372.7. Property crimes numbered 3,067, a rate of 998.0, closer to the state rate of 2,227.0 than violent crimes but still half the state rate.	7.1 (7.1)
○ Comparing rates for specific crimes, McHenry County's rates are far lower than the state for all eight index crimes.	7.1 (7.2) (7.3)
○ Drug arrests in McHenry County totaled 1,850 in 2015, down from the previous year.	7.2
○ The 2015 drug arrest rate in McHenry County stood at 602.1 per 100,000 population, a 77.8% rate increase since 1998.	7.2 (7.4)
○ Four in ten (43.6%) drug arrests were for drug paraphernalia, followed by cannabis (36.3%), controlled substances (19.0%), and hypodermic syringe needle (7.6%).	7.2
○ McHenry County arrest rates peaked in 2013 for cannabis, 2013 for drug paraphernalia, 2010 hypodermic syringe, and 2005 was the peak for controlled substances arrests.	7.2 (7.5)
○ During 2015, 1,705 children were reported as abused in McHenry County, a rate of 20.3 per 1,000 children ages 0-17, below the state at 29.9. The county's highest number of reported child abuse within the past decade occurred in 2008.	7.5 (7.8)
○ Of the year 2015 reported cases, cases affecting 608 children (35.6% of reported) were indicated, a rate of 7.2, again below the state at 9.7.	7.5 (7.8)
○ There were a total of 4,857 vehicles crashes in McHenry county roads in 2014 similar to the previous five years. Before 2009 crash reporting thresholds were different so cannot be directly compared. Number of persons injured in 2014 (1,303) was the lowest since 2000, when recordkeeping began.	7.6
○ Eighteen persons were killed in 2014 McHenry County motor vehicle crashes, comparable to previous three years: 2013 (16), 2012 (22), 2011 (14).	7.6

Chapter 8 BIRTHS

	Table (Figure)
○ McHenry County reported 3,266 births in 2014. The county's birth rate of 10.6 births per 1,000 population is lower than any year previous to 2011. The birth rate is below the state (12.4) and U.S. (12.6) as has been true for the previous nine years.	8.1 (8.1) (8.2)
○ McHenry County's 2014 fertility at 55.7 births per 1,000 females ages 15-44 is much lower than the 77.2 of fourteen years earlier. Fertility rates have held steady for the past several years. The county's 2014 and 2010 fertility rates were below the state and nation which was not the case in 1990 and 2000.	8.2 (8.3)
○ Most (95.3%) McHenry County newborns are white, with Asian babies making up 3.1%. Hispanic births (any race) represent 19.4% of the county's births.	8.3
○ Over one-third (34.5%) of McHenry County 2014 births were born to women ages 30-34 with slightly fewer (29.6%) born to women ages 25-29, the two largest proportions. Mothers ages 35 years and older gave birth to nearly one in five (18.4%) of the county's babies, higher than the state (17.1%) and nation (15.8%). Only 17.3% of McHenry County births were to women ages 24 and younger, far below Illinois (25.6%) and U.S. (28.4%).	8.4
○ The median age of McHenry mothers at 30.4 years old is older than mothers statewide (29.7) and nationally (30.0).	8.4
○ The highest fertility rate for McHenry County in 2012 is in the 25-29 age group at 131.7 per 1,000 females and in the 30-34 age group at 128.3 per 1,000 females. McHenry County exhibits lower 2014 fertility for ages under 25 and 40-44 than the U.S. Higher fertility in the county than the U.S. marks ages 25-39.	8.5 (8.4)
○ Compared to 2000, the county's 2014 fertility rates dropped for all except females ages 35-39.	8.5
○ For the years 2010-2014, Hispanic fertility (75.6) is almost than 50% higher than for white, non-Hispanics (53.7). Hispanic fertility peaks for ages 25-29 but is highest in the 30-34 age group for white, non-Hispanics at 127.8. The fertility rate for Hispanics ages 15-19 (39.1) is substantially higher than that of non-Hispanic whites (7.9) in the same age group.	8.6 (8.5)
○ One-hundred and twenty-five babies were born to McHenry County teens (females under age of 20) in 2014, representing 3.6% of births. The county's teen birth proportion continues to be well below the state (6.1%) and nation (6.3%).	8.7 (8.6)
○ Just under half (47.2%) of McHenry County teen births were to Hispanic mothers in 2014, with 50.4% to white, non-Hispanic mothers.	8.8

- Low weight babies, weighing less than five and a half pounds (2,500 grams), accounted for one in fifteen (6.4%) McHenry County births in 2014, below state (8.3%) and national (8.0%) levels. 8.9
- Preterm births, defined as newborns delivered before 37 completed weeks of gestation, represented 10.8% of 2014 births in McHenry County, lower than Illinois (11.8%) and U.S. (11.3%). 8.10
- Nearly three in ten (29.2%) McHenry County 2014 births were to unmarried mothers. This proportion has exceeded 20% since 2004 and is more than five times the 5.6% reported in 1980. The county's percent of babies born to unmarried mothers has always remained far below the state (40.1%) and nation (40.2%). 8.11 (8.8)
- Receiving first trimester prenatal care in 2014 were 85.1% of McHenry County births, above Illinois (77.8%). 8.12
- Only 4.9% of McHenry County births in 2014 were delivered by women who used tobacco while pregnant, a record low, and below the state (6.7%). Since 1990, tobacco use among pregnant women in the county has dropped by two-thirds. 8.14 (8.9)
- Common pregnancy-related risk factors among McHenry County residents who gave birth in 2014 included diabetes (5.7%), pregnancy-associated hypertension (3.7%), and chronic hypertension (1.2%). 8.15
- In 2014, McHenry County Hispanic women (7.9%) who gave birth more often suffered from diabetes than white, non-Hispanic women (3.9%). Alternately, white, non-Hispanic women more often experienced pregnancy-associated hypertension (3.1%) than Hispanic women (1.9%). 8.16
- Nearly one-third (29.9%) of McHenry County births in 2014 were delivered by Cesarean section, slightly below the state (31.2%) and nation (32.2%). 8.17
- Of the county's 2014 births, 36.5% represented the mother's first birth, 36.3% a second, and 27.1% a third or more. 8.17
- In 2014, multiple births accounted for 4.2% of McHenry County births, slightly higher than Illinois (4.0%) and U.S. (3.5%). 8.17
- One in eleven (9.0%) 2014 McHenry County births was born to a mother who had not completed high school, lower than Illinois (12.9%) and U.S. (14.4%). 8.17
- In McHenry County in 2014, more Hispanic (47.2%) than white, non-Hispanic (29.2%) women who gave birth were unmarried and twelve times as many Hispanic (35.1%) than white, non-Hispanic (2.8%) women who gave birth did not graduate from high school. 8.17 (8.10)
- More births to Hispanic (9.3%) than white, non-Hispanic (2.7%) mothers in 2014 were teenagers. 8.17 (8.10)
- Tobacco use during pregnancy was much higher in 2014 among the county's white, non-Hispanic (5.8%) than Hispanic (1.6%) women. 8.17 (8.10)

- In 2014, first semester prenatal care reached 84.9% for white, non-Hispanic mothers in McHenry County, higher than 76.4% for Hispanic mothers. 8.17 (8.10)
- Cesarean delivery was nearly equal between white, non-Hispanic (29.6%) and Hispanic (29.7%) county mothers who gave birth in 2014. 8.17
- In 2014, 392 abortions took place among McHenry County women for a rate of 120.0 per 1,000 births, far below Illinois (242.6). 8.18
- McHenry County reported 15 infant deaths in 2013, substantially lower than the 26 infant deaths in 1980. The county's 2013 infant death rate (4.7) fell well below the state (6.0) and nation (6.0). 8.19
- The county's 2011-2013 infant death rate of 3.6 per 1,000 live births is lower than the state (6.4) and U.S. (6.0). 8.20
- For McHenry County in 2007-2013, the Hispanic infant death rate (6.5) is higher than white, non-Hispanic (3.6). 8.21 (8.11)

Chapter 9 DEATHS

	Table (Figure)
○ McHenry County recorded 2,031 deaths in 2014, the highest number ever for the county, producing a rate of 6.6 deaths per 1,000 population. Over the past twenty-four years, the county's death rate has remained below both the state and nation.	9.1 (9.1) (9.2)
○ McHenry County's 2010 age-adjusted death rate at 7.0 deaths per 1,000 population falls slightly below Illinois (7.3) and U.S. (7.2).	9.2
○ Compared to the nation, McHenry County reported lower 2010 death rates for all age groups except 85 years and older. The rate for the 1-14 age group was not calculated due to a low number of deaths (n=4, McHenry County).	9.3
○ Over the past fourteen years, the number of county resident deaths due to stroke has dropped by more than 35%. However, the number of cancer deaths in 2013 exceeded 500 for the fourth time in the past fourteen years and the 114 deaths from accidents was the highest in the 2002-2014 period.	9.4
○ The county's top two killers, based on 2012-2014 deaths, are cancer and heart disease followed by chronic lower respiratory diseases, accidents, and strokes.	9.5 (9.3)
○ Based on 2012-2014 data, McHenry County death rates matched or fell below the U.S. for 12 of the 13 top causes, with Parkinson's disease being the sole exception. In relation to Illinois, county death rates were lower except for accidents, suicide, and chronic liver disease.	9.5
○ Based on 2012-2014 data, cancer death in McHenry County is most often due to cancer of the lung/bronchus which accounts for more than one-quarter (27.1%) of all cancer deaths, followed by cancer of colon/rectum/anus (8.0%), breast (8.0%), and pancreas (5.9%).	9.6 (9.4)
○ Accidental deaths in the county during 2014 total 114, the highest on record, for a rate of 37.1 per 100,000 population, above Illinois (36.1) but below the U.S. (42.7).	9.7
○ More than one-third (34.9%) of the county's accidental deaths for 2012-2014 are related to poisoning/exposure to noxious substances, while motor vehicle crashes caused 28.0%, and falls 21.4%. McHenry's rate for poisoning deaths (11.6 per 100,000) is equal to the state (11.6) and below the nation (12.4).	9.8 (9.5)
○ For the 16-year period 1999-2014, motor vehicle traffic (35.4%) led as the injury mechanism in accidental deaths, followed by poisoning (26.7%) and fall (16.8%).	9.9
○ The county death rate in 2014 for drug and alcohol induced causes at 18.9 per 100,000 population has lowered since the record high rate of 22.7 per 100,000 population in 2012, the highest in the period 1999-2010 but still twice the rate in 1999 (9.8). The county's current rate is below the state (20.4) and nation (25.2).	9.10 (9.6)

- Among drug and alcohol induced deaths in the county during 2011-2014, 67.7% were drug induced and 32.3% were alcohol induced, an increase in the percent of deaths due to drugs compared to 2007-2010. 9.11 (9.7)
- Using age-adjusted rates that eliminate the differences due to age, in the 2012-2014 data of the county's top ten causes of death chronic lower respiratory disease, accidents, diabetes, and suicide all were higher in McHenry County than the state. Compared to the nation cancer, chronic lower respiratory diseases, and nephritis all occurred at higher rates. 9.12 (9.8)
- McHenry County males display higher 2010-2014 age-adjusted death rates than females for eight of the ten leading causes (except stroke and Alzheimer's disease). Men are four times more likely than women to die from suicide. 9.13
- One-quarter (26.2%) of McHenry County 2010-2014 deaths occurred to persons under age 65, similar to the nation's premature mortality at 26.9%. Four causes claim a disproportionate share of early death: congenital malformations (94.6%) suicide (89.2%), accidents (71.1%), and chronic liver disease/cirrhosis (66.0%). More cancer deaths occur before age 65 (32.0%) than heart disease (19.8%). Larger proportions of county residents die before age 65 due to cancer, suicide, accidents, and congenital malformations than across the nation. 9.14
- One measure looks at years of life lost before age 75 compared to the population. For McHenry County, 4,800 years were lost per 100,000 population under 75, a lower rate than the state at 6,300 and U.S. 6,600. These figures are based on 2011-2013 mortality data. 9.15
- Comparing 2011 death rates by Hispanic origin shows a wide gap with the county's non-Hispanic age-adjusted rate (719.5 per 100,000) much higher than Hispanic (299.5). A similar disparity exists state and nationwide. 9.16 (9.9)
- Non-Hispanics in McHenry County, like the U.S., have higher age-adjusted death rates due to heart disease and cancer than Hispanics (2010-2014 data). 9.17
- Among Hispanics in McHenry County, 55.5% of deaths occur under age 65 compared to 25.4% among non-Hispanics, based on 2010-2014 mortality data. 9.18 (9.10)
- Based on data for 2005-2014, deaths to McHenry County's youngest age group, ages 0-14, are mostly due to perinatal conditions or congenital malformations. Accidents rank first for ages 15-44 followed by cancer. For ages 45-64 and 65-74, cancer is the number one death cause, then heart disease. The top two causes are reversed for the oldest age group of 75+ with heart disease first and cancer second. 9.19
- In 2002-2004, heart disease accounted for 25.9% of McHenry County deaths, dropping to one in five (21.4%) in 2012-2014. Cancer accounted for more than one-quarter (26.4%) of deaths in 2002-2004, similar to 25.8% in 2012-2014. 9.20

- Cancer, the leading cause of death, chronic lower respiratory disease, the third highest, and accidents, the fourth highest all show a higher crude death rate among the county's population in 2012-2014 over compared to 2002-2004. Heart disease, the second highest cause of death, and stroke, the fifth highest, both show a decrease over the same time period. 9.21 (9.11)
- In 2012, 1.61 births occurred for every death in McHenry County, a record low birth:death index. In 1990, there were 2.90 births for each death in the county, the highest in the years examined. 9.22
- In 2014, 38 local residents died by suicide, a rate of 12.4 per 100,000 population, above Illinois (10.9) but below the U.S. (13.4) 9.23 (9.12)
- Firearms were the mechanism for 37.1% of the county's suicide deaths since 1999. An additional 29.0% are attributed to suffocation, while 23.7% were poisoning. 9.24
- During 1999-2014, McHenry County's highest suicide death rates by age occur among ages 45-54 and 55-64, both with levels above Illinois. The rate for 45-54 year olds is below the national rate, but for 55-64 year olds the rate is above. 9.25
- In 2014, 39 McHenry County residents died from a drug overdose, a rate of 12.7 per 100,000, below both Illinois (13.5) and U.S. (14.0). Between 2003 and 2012 the rate of drug overdoses more than doubles from 5.7 to 14.8 per 100,000 persons. 9.26 (9.13)
- Among age groups, the county's drug overdose death rate during the period 1999-2010 is highest for ages 25-34 at 18.7 per 100,000 persons. 9.27 (9.14)

About drug and alcohol induced deaths:

Drug induced deaths include all deaths for which drugs are the underlying cause including deaths attributable to acute poisoning by drugs (drug overdoses) and deaths from medical conditions resulting from chronic drug use. A drug includes illicit or street drugs as well as prescription and over-the-counter drugs. The majority of these deaths are due to unintentional drug poisoning.

Alcohol induced deaths includes deaths from dependent and independent use of alcohol including accidental poisoning by alcohol. They exclude unintentional injuries, homicides, and other causes indirectly related to alcohol use.

Chapter 10 HEALTH STATUS AND BEHAVIORS

	Table (Figure)
<ul style="list-style-type: none"> McHenry County's 2009-2013 age-adjusted cancer incidence rate at 476.6 per 100,000 population is close to the state (475.0). When comparing men and women however women have a higher age-adjusted cancer rate at 449.3 compared to the state's rate of 437.6. Men in McHenry have a lower rate than the state of 517.4 per 100,000 compared to the state's rate of 531.6. 	10.1
<ul style="list-style-type: none"> Several cancer sites are statistically lower in McHenry County than statewide: Stomach, Liver, and Breast cancer both invasive and in Situ are lower than the state. Urinary Bladder (includes in situ) and Prostate were both higher in McHenry County than the state. 	10.2
<ul style="list-style-type: none"> In the five-year period 2009-2013 for both genders combined, lung/bronchus cancer occurs at the highest age-adjusted rate of 65.3 per 100,000 population with 924 cases. Because they are gender-specific, two other cancers produce higher rates: invasive breast (1,175 cases, 138.2 per 100,000 females) and prostate (895 cases, 119.1 per 100,000 males). 	10.3
<ul style="list-style-type: none"> McHenry County has witnessed a large rise in chlamydia over the past years with 631 cases reported in 2015 (204.4 per 100,000), record highs for number and rate, though the county's rate was still far below Illinois (542.5). Gonorrhea has also been increasing, though at a slower rate. In 2015, 55 cases of gonorrhea were reported for a rate of 17.8 per 100,000, well below Illinois (133.5), but the most cases on record. 	10.4 (10.1) (10.2)
<ul style="list-style-type: none"> In McHenry County, two AIDS cases were diagnosed in 2015 for a cumulative total of 66 living cases. Human immunodeficiency virus (HIV) disease had 9 reported cases and 60 living. The 2008-2015 rates for AIDS at 1.1 per 100,000 and HIV at 2.6 fall far below state rates. 	10.5
<ul style="list-style-type: none"> Hepatitis C led among the county's non-Sexually Transmitted Infections (reportable communicable diseases in 2015 accounting for 101 cases, followed by Pertussis (72), salmonella (67), and tick-borne Lyme (34). 	10.6
<ul style="list-style-type: none"> Past month alcohol use for McHenry County 8th, 10th, and 12th graders in 2016 stood at 18%, 22%, and 43%, respectively. Tobacco use is similar at 18% 8th, 21% 10th, and 34% of 12th graders. 	10.7 (10.3)
<ul style="list-style-type: none"> In 2016 nearly one in four (24%) McHenry County 12th graders, along with one in eight (12%) 10th graders reported using marijuana in the past month as well as 6% of 8th graders. 	10.7 (10.3)
<ul style="list-style-type: none"> For the most part, past year use rates of other illegal drugs among McHenry County students in 2016 are low, though cocaine/crack use stood at 3% for 12th graders and 6% of seniors used hallucinogens/psychedelics. 	10.8 (10.4)

- Inhalant use in the past month for 2016 is more common among McHenry County junior high/middle school students (4% for 8th grade) than older students (1% 10th and 12th). 10.8 (10.4)
- For 2016, past month prescription drug use that was not prescribed is similar across all grade levels, with 4% of 8th graders, 3% of 10th graders, and 4% of 12th graders surveyed. 10.8
- For 2016, one in four (23%) high school seniors reported binge drinking (5+ drinks in a row) in the past two weeks, far more than for 10th graders (9%) and 8th graders (8%). 10.8 (10.5)
- Based on 2016 data, the county's middle school/junior high students report more bullying through calling names (41% of 8th students) than high school students (28% 10th, 20% 12th). 10.9 (10.6)
- Bullying via hitting, punching, kicking is reported by 23% of 8th graders in the county, but fewer 10th (15%) and 12th (11%) graders for 2016. The county's level is higher than the state which is 15% for 8th graders, 9% for 10th, and 7% for 12th graders. 10.9 (10.6)
- One in four (27%) 8th graders in the county report bullying by another student through spreading rumors on the Internet or by text message during 2016, higher than for 10th (21%), 6th (22%), and 12th (17%) graders. 10.9 (10.6)
- One-quarter of county 8th (23%) graders say another student threatened to hurt them, above levels for 10th (15%) and 12th (11%) graders. 10.9 (10.6)
- Younger students are also more likely to report bullying or harassment because of their appearance or a disability (47% 8th, 25% 10th, 16% 12th). 10.9
- County youth in a dating relationship during 2016 report dating aggression at similar levels to the state for partner slapped/kicked/punched/hit (4% 8th, 4% 10th, 5% 12th) and partner tried to control (12% 10th, 14% 12th). 10.9
- For 2016, one-third (32%) of county 8th graders report being in a physical fight in the past year, dropping to 16% for 10th graders and 18% for 14th graders. County fighting levels for all grades are below the state. 10.10
- Similar proportions of county youth report carrying a weapon at school over the past year (17% 8th, 10% 10th, 11% 12th). 10.10 (10.7)
- One in fourteen (7%) 12th graders report selling illegal drugs in the past year, higher than 10th graders (4%), and 8th graders (3%). 10.10
- One in eight (13%) county seniors report being drunk or high at school in the past year, above levels for both 10th (6%) and 8th (5%), based on 2016 data. 10.10 (10.7)
- Nearly one-quarter (22%) of county 12th graders report past year driving after using marijuana or another illegal drug and 10% report driving after drinking alcohol, based on 2016 data. Rates fall for 10th graders 7% after drugs, 4% after drinking). 10.10 (10.7)

- Nearly one in five (18%) McHenry County 10th graders and 15% of 12th graders said they had seriously considered attempting suicide in the past year. One in three (35%) 8th graders felt so sad or hopeless almost every day for two weeks or more that they stopped doing usual activities, slightly higher than levels for 10th (33%) and 12th (31%) graders. 10.11 (10.8)
- Based on national prevalence rates in *National Survey on Drug Use and Health: 2010*, 28,714 McHenry County residents ages 12 years and older have used illicit drugs in the past month. Most use marijuana, an estimated 23,596 local persons, while 9,950 use illicit drugs other than marijuana, with non-medical use of psychotherapeutic medications being the leading category of drug use. 10.12
- Among legal substances, alcohol is most often used followed by tobacco. An estimated 146,979 McHenry County residents have consumed alcohol in the past month and 18,479 are heavy alcohol users. An estimated 67,976 county residents have used tobacco products in the past 30 days. These county figures are based on national prevalence rates. 10.12
- Illicit drug use varies by race, with blacks more likely to have used these in the past month (13.0% among ages 12+) versus whites (10.3%) and Hispanics (9.2%), according to national proportions. Past month alcohol use is highest for whites (57.0%), followed by blacks (43.8%), Hispanics (42.4%), and Asians (39.7%). 10.13
- Gender differences also exist related to drug and alcohol use with males much more likely to have used an illegal drug (12.5% of ages 12+) than females (7.9%) and to have used alcohol (males 56.2%, females 47.4%) according to national proportions. 10.14
- During 2012, DUI arrests in McHenry County totaled 782 for a rate of per 361.1 100,000 population ages 16+, a rate slightly above Illinois. The number of arrests represents a drop from 2010. 10.15 (10.9)
- Based on Substance Abuse and Mental Health Services Administration (SAMHSA) 2015 national prevalence rates, nearly one in five (18.6%) or an estimated 41,773 McHenry County residents 18 years and older have been affected by a mental illness in the past year. Serious mental illness affected nearly one in 20 (4.1%, 9,208 adults), while mental illness co-occurring with substance abuse affected 3.6% (8,085). Males are more likely to suffer from mental illness than females as are individuals living below the poverty level compared to persons 200% or more above poverty. 10.16
- One in thirteen (7.9%) local residents ages five and older report a disability, below the state (10.6%) and nation (12.3%). Among ages 5-17 with 3.2% reporting a disability, cognitive difficulty is most common (2.4%). One in fifteen (6.6%) ages 18-64 report a disability, most frequently ambulatory (2.9%), while three in ten (30.3%) among 65+ are disabled in some way, most often in ambulation (19.4%). 10.17 (10.10)
- In 2016, reported disability among county residents is slightly higher for males (9.6%) than females (8.9%). Non-Hispanic whites report a higher rate of disability at 10.2% compared to Asian (2.9%) and Hispanic (5.5%) 10.18

- The majority (57.7%) of McHenry county residents rate their own health as excellent or very good. For mental health almost one quarter (22.8%) of residents said they had 1-7 days when their mental health was not good in the past month, and 13.7% said they had 8-30 days. In terms of physical health a similar proportion (29.3%) reported 1-7 days when physical health was not good in the past month and 11.8% said they had 8-30 days. 10.19
- Almost one fifth (19.6%) of McHenry county residents reported their activities were limited by an impairment. 10.19
- The most common reported condition was arthritis with 27.1% of the people polled reporting the condition. Asthma (11.0%) and diabetes (8.3%) were also common. 10.20
- Only slightly more than one in three (37.2%) of McHenry County residents reported being underweight or normal, with the remainder self-reporting being overweight (36.3%) or obese (26.5%). 10.21
- One in five (20.5%) of McHenry county residents reported behavior that put them at risk for binge drinking and 13.4% are current smokers. 10.21
- McHenry County has a high rate of cancer screenings with 93.8% of women age 40 and over reporting that they've had a mammogram. Only 51.5% of men age 40 and over have had a PSA test. Similarly 62.3% of adults age 50 and over have had a colon/sigmoidoscopy and 33.2% have had a blood stool test. 10.22
- Approximately one twentieth (5.7%) of McHenry County Kindergartners have dental sealants, while three times as many (14.2%) have untreated dental carries. Less than one percent (0.9%) need urgent dental treatment 10.23
- Almost one half (42.9%) of second graders have dental sealents, a much higher proportion. A similar amount have untreated dental caries (16.1% and need urgent treatment (0.3%) 10.24

About the Illinois Youth Survey for McHenry County and Illinois

- Participation in Illinois Youth Survey (IYS) is voluntary. In 2016, 13 out of 33 eligible schools participated. No private school participated. Schools are listed below.
- Statewide sixth grade levels were not released because the Chicago Public Schools Research Review Board did not permit sixth graders to be surveyed in their district. Chicago is an important segment of the state's random sample.

Chapter 11 HEALTH RESOURCES AND UTILIZATION

	<u>Table (Figure)</u>
○ Roughly one in eleven (8.7%) McHenry County residents under age 65 lacks health insurance coverage. Uninsured levels are higher for persons with lower incomes in that more than one-fifth with incomes up to twice the poverty level (21.1%) and at 138% of poverty (22.1%) report having no health insurance. Local uninsured levels are higher than the state for low-income residents.	11.1 (11.1)
○ For McHenry County adults ages 18-64, 7.1% lack health insurance rising to 28.3% for persons at up to 200% poverty and 31.0% for persons up to 138% of poverty. The levels for persons with low income are considerably higher than the state.	11.1 (11.1)
○ In 2015, Medicaid enrollees numbered 49,938 in McHenry County, a record high that represents 16.2% of the population. This is over 10,000 more people than 2012 and 30,000 more than 2006, an increase of 169.7%.	11.2 (11.2)
○ Hospital discharge rates appear to be lower for McHenry County residents than the state. McHenry County hospital discharge rates are lower than Illinois for both genders and for all ages except ages 65+ where the county rate is higher than the state.	11.3
○ The county's female hospitalization rate (1,118.6) is higher than male (859.7) and hospitalization rate increases with age with residents 65+ having the highest rate (2,856.7).	11.3 (11.3)
○ Normal newborn was the top reason for local residents' hospitalization in 2016. Placing second was psychoses (a generalized mental health category) followed by another birth-related diagnosis, uncomplicated vaginal delivery. Fourth most common diagnosis was major joint replacement/reattachment of lower extremity (hip or knee replacement), fifth digestive disorders, and sixth Cesarean section. These data reflect county residents' hospitalizations regardless of where hospitalization took place, but only includes facilities in Illinois.	11.4
○ McHenry County shows higher-than-state rates for just 10 of the top 30 diagnoses. The widest excess between county residents and state occurs for Rehabilitation w/ CC/MCC.	11.5
○ Compared to 2009, fewer hospitalizations of county residents occurred in 2016 for birth-related diagnoses of normal newborn, neonate with significant problems, vaginal delivery, and Cesarean. Fewer hospitalizations also took place for digestive disorders and alcohol/drug abuse or dependence. The reverse was true with more hospitalizations in 2016 than 2009 for hip/knee replacement, cellulitis and psychoses.	11.6

- Excluding birth-related or gender-specific diagnoses, McHenry County males and females had the same top two reasons for hospitalization – psychoses and hip/knee replacement. Alcohol/drug abuse or dependence came in third for males but for females digestive disorders stood at third. The fourth place diagnosis for both males and females was septicemia. Kidney and urinary tract infection rounds out the top five for females but does not fall anywhere on the list of the top 30 for males whose fifth place diagnosis was digestive disorders. 11.7
- Besides being born, McHenry County children ages 0-4 were most often hospitalized in 2013 for pneumonia, bronchitis & asthma, ear infections, and seizures. 11.8
- The most common hospitalization reasons for ages 5-17 were psychoses, depressive neuroses, diabetes, seizures, and pneumonia. 11.8
- Three of the five leading hospitalization reasons for ages 18-44 were birth diagnoses: vaginal delivery (simple) and Cesarean section (uncomplicated and complicated). Besides those, psychoses and alcohol/drug abuse or dependence were most common. 11.8
- Middle-aged persons ages 45-64 were most likely hospitalized for hip/knee replacement, psychoses, digestive disorders, alcohol/drug abuse or dependence, and cellulitis. 11.8
- Among McHenry County residents ages 65-74, hip/knee replacement, septicemia, digestive disorders, chronic obstructive pulmonary disease, and psychoses were the top five hospitalization reasons. Among the oldest age group, ages 75+, hip/knee replacement, heart failure and shock (with major complications complications), septicemia, heart failure and shock (with comorbid conditions), and pneumonia led among diagnoses. 11.8
- There were 802 residents of Long Term Care facilities in McHenry County in 2014. The most common primary diagnosis was circulatory system (20.0%) followed by Alzheimer's disease (14.2%) and Developmental disability (11.3%). 11.9
- Among 2014 patients in the county's long-term care facilities, two-thirds (67.4%) were female and more than four in ten (45.0%) ages 85 years and older. Slightly under half (48.5%) used Medicaid as their primary payment source, followed by private pay (23.3%) and Medicare (20.0%). 11.10
